

Promptness and Efficiency in filling your Prescription

next of importance to the doctor's orders. Promptness means that we have the freshest and latest drugs right here in the compounding department and that there is no need for unnecessary waiting. Efficiency signifies that the very highest skill is used in filling your prescription. The combination of these two things is of the greatest consequence in that cure. Ask your doctor.

Besides a well equipped compounding department, we have a large stock of all the specialties usually carried by every first class drug store.

Better Than a Piano

Give me a phonograph. I'd rather have it than a piano. Thousands say the same thing. And why not?—an Edison Phonograph sings any song, plays any music, reproduces any sound—in fact actually supplies every form of entertainment. Easy to manipulate. We sell Edison Phonographs at lowest market prices. All the best records too. Come hear one of these new machines and get a list of April records.
